

# Silicon Valley Endodontics & Microsurgery

Jason Kung, DDS, MS — Specialist Endodontist

(669) 234-2354 · 1565 Hollenbeck Avenue, Suite 106, Sunnyvale, CA 94087 · [svendodontics.com](http://svendodontics.com)

## What to Expect at Your First Visit

Plan for about 60 minutes for a consultation — or 2 to 2.5 hours if you choose same-day treatment. Full guide: [svendodontics.com/what-to-expect-first-visit](http://svendodontics.com/what-to-expect-first-visit).

### 1 Arrival & paperwork (5–10 min)

Arrive 10 minutes early. Ground-floor parking and full ADA access. The intake form takes about 5 minutes — or complete it online beforehand at [svendodontics.com/intake](http://svendodontics.com/intake) and skip the waiting-room paperwork.

### 2 Diagnostic imaging (5–10 min)

X-rays of the tooth in question. For complex cases we take a low-dose 3D CBCT scan — about 9 seconds in the chair, with a radiation dose comparable to a few days of normal background exposure.

### 3 Clinical exam (10–15 min)

Dr. Kung tests the tooth's nerve response (cold and electric), checks bite and tap response, and traces any cracks under the surgical microscope to confirm exactly what is causing the problem.

### 4 Consultation & treatment plan (10–20 min)

Your own x-rays and scans on the chairside monitor, every option explained (root canal, retreatment, microsurgery, extraction, or no treatment), an honest prognosis, and a written estimate with your insurance applied. You decide.

### 5 Treatment the same day — if you choose (60–90 min)

If you'd like to proceed and time allows, most root canals are completed in the same visit. Prefer to come back? We book your treatment appointment before you leave.

#### WHAT TO BRING

- Photo ID and your insurance card (plus the policy holder's date of birth, if different).
- A current list of medications and allergies.
- Any x-rays, CBCT discs, or referral notes from your dentist — we can also request them directly.
- A short list of questions you want answered. Bringing a family member is always welcome.

#### WHAT YOU LEAVE WITH

- After treatment: written post-op instructions, any prescription, and a follow-up call within 48 hours.
- After a consultation only: a written treatment plan with itemized fees and your insurance benefits applied — nothing is scheduled or billed without your written consent.
- Your notes and final x-rays go to your general dentist within 24 hours for the permanent restoration.

### Nervous about the visit? Tell us when you book.

(669) 234-2354 — answered seven days a week. Same-day emergency slots held every clinical day, including Saturday and Sunday 8 AM–3 PM.
